

Spring Break
2012

Alternative Spring Break

A group of Kirtland students will be traveling on a substance free, service trip during Spring Break. Team members will work with one another and residents of urban Communities in Michigan. Together, they will learn about issues surrounding urban areas while providing meaningful service and reflecting on the experiences of each individual. Alternative Break is a program to promote service-learning on campus as well as leadership development for the student participants.

“Explore. Dream. Discover.”

Become part of the Kirtland Community College Alternative Spring Break trip.
