

Kirtland Health Sciences Center

Naming Opportunities

Kirtland's Partnership for Excellence Campaign

Partnering with Kirtland to Fund the Health Sciences Education & Training Center

Kirtland Community College is seeking educational partners for the construction of a new Health Sciences Education & Training Center located on Interstate 75. Your partnership will ensure the education of future employees at our medical centers and provide for better health care in all of northern Michigan. Equally important, your willingness to partner will provide training opportunities for existing health care professionals vital to maintaining quality health care.

Kirtland is also providing partnership opportunities on the Roscommon Campus to help educate much needed skilled trades professionals.

To become a Kirtland partner, please consider funding any of the naming opportunities listed in this piece in the form of a cash donation, material donation, planned gift or a pledge. Partnering with Kirtland in this venture allows you to leave a legacy, honor a loved one or demonstrate your support for the necessity of keeping education relevant, accessible and transformational. Your generous gift represents a commitment to meeting the needs of our students and our communities for years to come. Kirtland partners will have their name engraved on a memorial plaque and placed in a suitable location.

For more information, contact a Foundation staff member who can answer your questions about how you can become a Kirtland partner and provide advice on the size or nature of the contribution you may choose to make.

In summary, your support of Kirtland's Partnership for Excellence Campaign will provide our children and grandchildren the opportunities for an accessible, state-of-the-art health care education, preparing them for quality jobs in the health care industry. And no matter how long you've resided in this area as a full- or part-time resident, weekender or as a visitor for a few weeks each summer, maintaining quality health care is crucial. Everyone should have a vested interest in it because you never know when you'll need it.

We thank you in advance for supporting Kirtland's Partnership for Excellence Campaign with a named area designation that signifies your commitment and belief in the importance of education now and for years to come.

Thank you,

William E. Curnalia, Chairman
Kirtland Community College Foundation
