The VFA is the principle accountability framework for community colleges with measures defined to encompass the full breadth of the community college mission and the diversity of students' goals and educational experiences. The mission-appropriate measures determine how well community colleges are serving students; provide colleges the ability to identify problems and set goals for institutional improvement; and be properly accountable to stakeholders.

The VFA’s *Public Outcomes Report* includes the data that colleges are required to report and share publicly. Listed below are the contents of this report.

Overview of what is in the VFA Public Outcomes Report

### STUDENT PROGRESS & OUTCOMES (SPO)

#### SPO Timeframes
The SPO measures are reported for students from two timeframes:

- **TWO YEAR**
  Students that entered the college two years ago (Fall Students 2014) and their progress/outcomes by the end of those two years

- **SIX YEAR**
  Students that entered the college six years ago (Fall Students 2010) and their progress/outcomes by the end of those six years

Colleges are required to report the [TWO-YEAR PROGRESS MEASURES](#) for the students that entered two years ago

Colleges are required to report the [DEVELOPMENTAL EDUCATION AND SIX-YEAR OUTCOMES MEASURES](#) for the students that entered six years ago

#### SPO Student Cohort Types
Colleges are also required to report the SPO measures for three types of student groups:

- **A. Main Cohort**
  Fall entering students who are first time at the reporting college

- **B. Credential Seeking**
  Students in the Main Cohort who earned 12 credits by the end of their first two years

- **C. First Time in College**
  Students in the Main Cohort who entered six years ago

#### SPO: DEVELOPMENTAL EDUCATION PROGRESS MEASURES

**Developmental Subjects:** math, English, reading

- Distribution of developmental need (1, 2, or 3 levels below college level in subject)

Of the students with developmental need in a subject, the number who:

- Attempted any developmental education in subject
- Completed developmental education in subject
- Completed a college-level course in subject

**Any Developmental (non-subject)**

- Enrolled in any developmental
- Completed all developmental (and are college-ready)

#### SPO: TWO-YEAR PROGRESS MEASURES

- Retention: fall to next term
- Successful completion of credits: 1st term; by end of year two
  - # of total credits completed with a C grade (C-, C+) or better by the cohort
- Reached credit threshold by end of year two
  - # of students in the cohort that earned 24 credits (part-time) or 42 credits (full-time)
- Persistence/attainment: completed certificate/degree; transferred; still enrolled

#### SPO: SIX-YEAR OUTCOMES MEASURES (unduplicated; hierarchical)

- Completed certificate, associates, or bachelor’s degree (with and without transfer)
- Transfer (no award)
- Persistence: still enrolled
- Left with > or = 30 credits; Left with < 30 credits

### CAREER & TECHNICAL EDUCATION (CTE)

#### CTE Profile

**CTE profile of the college**

- CTE Enrollment (credit and non-credit); change over previous year
- CTE Completions (credit and non-credit); change over previous year

#### CTE Measures & Cohort

Reports on the post-collegiate outcomes of students that completed credit or non-credit CTE or had a significant CTE experience at the college

**CTE student outcomes post CTE (credit and non-credit)**

- Completed CTE certificate or degree
- Employed (with wage bands)
- Median wage growth of CTE students post CTE
- Enrolled post-CTE in higher education
- Passed licensure exam
- Completed industry credential(s)

### ADULT BASIC EDUCATION (ABE)

Reports on the completion of ABE and post-ABE outcomes of students that took ABE at the college in a given year

- Completed ABE
- Enrolled in more education post ABE
- Gained employment post ABE
These data represent students that first entered the college in Fall Students 2014 (or summer before) and their progress by the end of their first two years.

**Two-Year Progress Measures**

### Progress by End of Year Two by Cohort Type

- **Main Cohort:** fall entering, first time in college
- **Credential Seeking:** earned 12 credits by end of year two
- **First Time in College:** fall entering, first time in college

*Students could be in more than one cohort type.*

These measures report milestones along the educational pathway and persistence/attainment outcomes by the end of a student’s first two years at the college.

The persistence/attainment outcomes by the end of year two provide an early indicator of the cohort’s performance. These outcomes are not exhaustive and will not sum to 100% of the students in the cohort. The outcomes are:

- Unduplicated
- Hierarchical
- Achieved by the end of two years
- Credentials earned at the reporting college

Cohort Types

Different types of students

A. Main Cohort: fall entering, first time

B. Credential Seeking: earned 12 credits by end of year two

C. First Time in College: fall entering, first time in college

*Students could be in more than one cohort type.

Developmental Math Need*

Percent of students in cohort that were referred/placed into developmental math

Developmental need is broken down further into three levels of need, below college level.

Developmental Math Need

These outcomes answer the question: – What percentage of students in the cohort type that needed developmental math – completed developmental math and progressed to successfully complete a college-level course in math?

*The method of identifying students with a developmental need is "referral".
These data represent students that first entered the college in Fall Students 2010 (or summer before) and their progress and outcomes by the end of six years.

About the CTE Profile

The CTE Profile provides the college’s most recently available CTE enrollment and completions data (for both credit and non-credit CTE offerings). This information provides context about the college’s CTE. It is not based on a cohort of students.
Career & Technical Education Cohort Outcomes (CTE Students Completed/Left in 2013-14)

These data represent students that took CTE at the college, exited the college in the 2013-14 academic year, and their outcomes upon exiting the college with a CTE credential or a significant CTE experience (earned 7 CTE credit hours or received 180 contact hours of CTE instruction).

### Of the 791 students in the CTE Non-Credit Cohort, 370 students transitioned to Credit courses at the college.

---

The CTE Cohort is made up of students that took CTE at the college (credit or non-credit CTE) and either earned a formal award in CTE [completers] or left the college with a significant CTE experience – having earned 7 CTE credits or having received 180 contact hours of CTE instruction [leavers].

### About CTE Outcomes

For the CTE Completer/Leaver Cohort, the VFA then reports these students’ outcomes after the CTE experience (post-collegiate).
Kirtland Community College (Roscommon, MI)

Career & Technical Education Cohort (CTE Students Completed/Left in 2013-14)

These data represent students that took CREDIT CTE at the college, exited the college in the 2013-14 academic year, and their outcomes upon exiting the college with a CTE credential or a significant CTE experience (earned 7 CTE credit hours or received 180 contact hours of CTE instruction).

At present, the VFA provides graphical data for the CREDIT CTE measures but not for the NON-CREDIT CTE measures. The variances in how colleges track NON-CREDIT CTE and the lack of data available on NON-CREDIT CTE are challenges for many colleges. Therefore there is not enough NON-CREDIT CTE data to display appropriately using graphics.

Kirtland Community College (Roscommon, MI)

Adult Basic Education Cohort (Students from )

These data represent students that came to the college for ABE in the academic year.

Adult Basic Education (ABE) Measures (Optional)

ABE Cohort

The ABE Cohort is students that took ABE at the college during the academic (or calendar year) indicated.

ABE Measures

These ABE measures determine first which students reached a standard level of high school equivalency (or completed adult basic education) at the college. Of those students that achieved an adult basic education, the measures determine what percentage of these students continued with their education or gained employment with a wage above the minimum wage, within one year of exiting the college.
